Provost's Pre-Dissertation Fellowshio

This fellowship program has two objectives:

- To allow students to conduct pre-dissertation research and training following completion of the first exam.
- To support the development of a dissertation research proposal suitable for submission to an external funding agency.

This program seeks to facilitate the transition from coursework to advanced individualized research. Early research awards allow students to strengthen their proposals by:

- Refining their research topic into a well-defined research problem;
- Determining appropriate research design, methods, research locale(s), and language(s);
- Assessing project feasibility and determining necessary affiliations and approvals.

Deadlines: March 2016-03-31

Advanced Research Collaborative

The Advanced Research Collaborative extends the Graduate Center's global reach and prominence as an international hub of advanced study. Specifically, ARC partners with the Graduate Center's forty research centers, institutes, interdisciplinary committees, and other academic initiatives to promote interdisciplinary research. ARC also works closely with Graduate Center offices to promote public programming on critical issues of the day. Through its fellowships, which attract international researchers and scholars as well as doctoral students, participants are offered even more possibilities for collaboration. ARC supports several areas of study, with a focus on a small number of research themes each year.

Graduate Center Digital Fellowships

Based in the GC Digital Scholarship Lab, the GC Digital Fellows Program operates as an in-house think-and-do tank for digital projects, connecting Fellows to digital initiatives throughout The Graduate Center. Digital Fellows utilize a team-based approach as they explore creative solutions for projects that can be implemented in a collaborative fashion. In the process, the Program helps build out “The Digital GC” — a vision of the Graduate Center that incorporates technology into its core research and teaching missions. The total compensation for the award is \$27,000. This funding will include a graduate assistant appointment that will carry eligibility to purchase the low-cost NYSHIP health insurance, a stipend, and in-state tuition remission for fellows who are within their first 10 registered semesters of study. Digital Fellows will be required to work a total of 450 non-teaching hours during the academic year (two 15-week semesters). The initial DF appointment is for one year, normally from September 1 through August 31 (exact dates vary and will be specified upon appointment). Determinations of DF re-appointments will be made on annual basis, depending on individual eligibility and GC needs.

Application season: Spring
